Description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Attached claims would be allowable, extension of time needed for entry.

(A fuller description, if necessary, and a copy of the amendments, if available, which the examiner agreed would render the claims allowable must be attached. Also, where no copy of the amendments which would render the claims allowable is available, a summary thereof must be attached.)

1. ☒ It is not necessary for applicant to provide a separate record of the substance of the interview.

Unless the paragraph above has been checked to indicate to the contrary, A FORMAL WRITTEN RESPONSE TO THE LAST OFFICE ACTION IS NOT WAIVED AND MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a response to the last Office action has already been filed, APPLICANT IS GIVEN ONE MONTH FROM THIS INTERVIEW DATE TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW.

2. ☐ Since the Examiner's interview summary above (including any attachments) reflects a complete response to each of the objections, rejections and requirements that may be present in the last Office action, and since the claims are now allowable, this completed form is considered to fulfill the response requirements of the last Office action. Applicant is not relieved from providing a separate record of the interview unless box 1 above is also checked.

Examiner Note: You must sign and stamp this form unless it is an attachment to a signed Office action.

35. A compound archery bow comprising first and second bow limbs having axle pins therein, an anchor cable having a first end fixed on the axle pin of said first bow limb and being the only cable fixed on the axle pin of said first bow limb, and having a second end of said anchor cable fixed to an eccentrically mounted cam mounted on the axle pin of said second bow limb, said eccentrically mounted cam comprising a non-circular profile to feed out a first cable section affixed to the cam and a second cable section affixed to the cam while said cam is taking up said anchor cable when the bow is being drawn and whereby because said anchor cable is fixed at the first end to the axle pin of said first bow limb and fixed at the second end to the eccentrically mounted cam on the axle pin of said second bow limb, said anchor cable causes the synchronized flexing of the bow limbs when the bow is being drawn, and wherein both said first and said second cable sections extend from said eccentrically mounted cam in the direction of said axle pin of said first bow limb, and one of said first cable section or second cable section forms a bowstring.

36. A compound archery bow as set forth in claim 35 wherein said [means] non-circular profile of said cam [to feed] which feeds out the first cable section and second
